

CONTACT INFORMATION

Health Sciences Building F-600 *Phone:* (206) 310-4888
 Department of Biostatistics *Email:* brianw26[at]uw[dot]edu
 University of Washington *Web:* <https://bdwilliamson.github.io>
 Seattle, Washington 98195

RESEARCH INTERESTS

Inference in high-dimensional models using targeted maximum likelihood estimation; data visualization; statistical methods for high-dimensional data; statistical methods for neurological research; statistical methods for genetic research; statistical methods for cancer research; statistical methods for HIV/AIDS research; developing statistical packages

EDUCATION

University of Washington, Seattle, Washington
 Ph.D., Biostatistics 2014–2019 (expected)
 M.S., Biostatistics 2017
 Advisors: Marco Carone, Ph.D. and Noah Simon, Ph.D.

Pomona College, Claremont, California
 B.A., Mathematics 2010–2014
 Thesis: Shrinkage Estimators for High-Dimensional Covariance Matrices
 Advisor: Johanna Hardin, Ph.D.

HONORS AND AWARDS

University of Washington Department of Biostatistics:

- WNAR Most Outstanding Oral Paper Award June 2017
- Biostatistics Department Conference Travel Award Spring 2017
- Graduate School Fund for Excellence and Innovation Travel Award Spring 2017
- Graduate and Professional Student Senate Travel Grant Spring 2017
- Top Scholar Incoming Student Award September 2014

Pomona College:

- Distinction in the Senior Exercise May 2014
- Inducted into Sigma Xi Scientific Research Honor Society May 2014
- Pomona-Pitzer Varsity Swimming and Diving Captain 2013–2014
- All SCIAC Conference Academic Team 2013 and 2014
- All SCIAC Conference Swimmer 2013
- UCLA DataFest Best Insight Award June 2013

RESEARCH EXPERIENCE

Fred Hutchinson Cancer Research Center, Seattle, Washington
 Statistical Center for HIV/AIDS Research & Prevention (SCHARP)
Graduate Research Assistant Summer 2015 – Present
 Advisor: James Hughes, Ph.D.

Stanford University School of Medicine, Stanford, California
Integrative Cancer Biology Program Research Fellow Summer 2013
 Advisors: Benedict Anchang, Ph.D. and Sylvia Plevritis, Ph.D.

TEACHING EXPERIENCE

University of Washington, Seattle, Washington

Teaching Assistant

Summer Institute in Statistics for Big Data

Module 3, Reproducible Research for Biomedical Big Data

July 2017

Instructors: Keith Baggerly, Ph.D. and Karl Broman, Ph.D.

Teaching Assistant

Summer Institute for Statistics for Big Data

Module 2, Visualization of Biomedical Big Data

July 2016, July 2017

Instructors: Dianne Cook, Ph.D. and Heike Hofmann, Ph.D.

Graduate Teaching Assistant

BIOST 311 — Regression Methods in the Health Sciences

Spring 2017

Instructor: Anna Plantinga

Graduate Teaching Assistant

BIOST 571 — Advanced Regression Methods for Dependent Data

Winter 2017

Instructor: Adam Szpiro, Ph.D.

Co-instructor

Inaugural School of Public Health Math and R skills preparatory workshop

Fall 2016

Advisor: Annette Fitzpatrick, Ph.D.

Co-instructor

First Year Statistical Theory Exam Review Sessions

Spring 2016

Advisor: Scott Emerson, M.D. Ph.D.

Teaching Assistant

Summer Institute for Statistics for Big Data

Module 1, Accessing Biomedical Big Data

July 2015

Instructors: Jeff Leek, Ph.D. and Raphael Gottardo, Ph.D.

Graduate Teaching Assistant

R package development for introductory biostatistics courses

Summer 2014 – Summer 2015

Advisor: Scott Emerson, M.D. Ph.D.

Pomona College, Claremont, California

Mentor/Teaching Assistant

MATH 58b — Introduction to Biostatistics

Spring 2014

MATH 58 — Introduction to Statistics

Fall 2013

Instructor: Johanna Hardin, Ph.D.

Grader

MATH 58b — Introduction to Biostatistics

Spring 2013

Instructor: Johanna Hardin, Ph.D.

MATH 31H — Honors Calculus II

Fall 2012

Instructor: Shahriar Shahriari, Ph.D.

MIXED MEDIA PRESENTATIONS

1. **Williamson B**, Carone M, and Simon N. Assessing Variable Importance Nonparametrically using Machine Learning Techniques. Sigma Xi Student Research Showcase. April 2017, <https://briandwilliamson.tumblr.com/>

POSTER PRESENTATIONS

1. **Williamson B**, Carone M, and Simon N. Assessing Variable Importance Nonparametrically. University of Washington Biostatistics Department Retreat. September 2015, Blaine, WA.

PROFESSIONAL SOCIETIES

Western North American Region of the International Biometric Society (WNAR)	
<i>Student Member</i>	Fall 2014 – Present
American Statistical Association	
<i>Student Member</i>	Fall 2013 – Present
Bernoulli Society	
<i>Student Member</i>	Spring 2016 – Present

UNIVERSITY SERVICE

University of Washington Department of Biostatistics

Student Member

Educational Policy and Teaching Evaluation Committee (EPTEC) Autumn 2015 – Present

Peer Mentor

Peer mentoring program Fall 2016 – Present

Co-organizer

Statistical Learning Applied to Biostatistics (SLAB) Lab Fall 2016 – Present

Student Member

Diversity Committee Fall 2016 – Present

Student Member

Website Committee Spring 2015 – Summer 2015

PROFESSIONALLY-RELATED SERVICE

- *Session Chair*, “Quantification, Association Testing, and Integration of the Microbiome”, Invited Session, JSM 2017
- *Alumni Mentor*, SagePost 47 Summer 2015 – Present
- *Statistical Consultant*, Sierra Streams Institute, Nevada City, California Spring 2016

SOFTWARE

uwIntroStats package – R software for introductory biostatistics students, developed with Scott Emerson M.D. Ph.D., Andrew Spieker Ph.D., Travis Hee Wai, and Solomon Lim (Available on CRAN at <https://cran.r-project.org/web/packages/uwIntroStats/>)

vimp and **vimpv** packages – R and Python software implementing variable importance methods (Available on GitHub at <https://github.com/bdwilliamson/vimp> and <https://github.com/bdwilliamson/vimpv>)

TECHNICAL SKILLS

Statistical packages: Advanced knowledge of R, basic knowledge of SAS and Stata

Languages: Proficient in Python, basic knowledge of Java, C++, SML

Applications: Advanced knowledge of L^AT_EX, common Windows software

Operating Systems: Advanced knowledge of Unix/Linux, Windows

PROFESSIONAL EXPERIENCE

Global Market Insite, Inc. (GMI), Bellevue, Washington

Intern Summer 2012

- Analyzed the survival of a cohort of recruits to GMI’s panel of consumer market research survey respondents and built a function to model survivorship of survey respondents
- Built a life table to model the survivorship of survey respondents
- Built a model which predicts revenue gained from interventions at certain steps in a panelist’s life cycle
